Vision

Enable the performing arts sector to share their digital collections and stimulate reuse

In 2025

- Podiumkunst.net is the network for the performing arts sector
- large, medium and small cultural performing arts institutions and archives are affiliated
- the target groups know where to find the collections and are inspired by them
- the performing arts, heritage and design sector contribute to the *National Strategy Digital Heritage*

History

Closed data

- Only available for own employees / organisation

- Only physical access

- Business model for metadata

- Funding based on physical, not digital presence

Present

Open data

- Internet created the possibility to share your data with others.

- More digitisation

- Digitisation leads to more visitors

- Funding based on digital presence

Finding and connecting

Finding

BUT OPEN!

- Making the data available is the start for practical use, connecting and improving it!

- When your data is open, your collection can be found in isolation, when using the right terms you can be found in connection

Develop shared services

How do we connect collections?

- Differences in content (theatre, audio, sheet music)

- Differences in metadata

LOD to find and link collections

- Open to the internet (Google can find it)

- Linked for the connection

Knowledge graph Podiumkunst.net to connect collections based on common ground

Knowledge graph Podiumkunst.net

Metadata

- Podiumkunst.net is working on a knowledge graph which is the basis for the connection of all collections in the performing arts area
- Responsibility of the metadata remains with the institutes
- The knowledge graph connects the collections based on shared metadata elements (terms)
